

Engaging SDGs for Transformative Education
and Enhanced Sustainability in Universities

Final Dissemination Report

January 2026

Co-funded by the
Erasmus+ Programme
of the European Union

About SDG4U

SDG4U's key priority is to stimulate innovative learning and teaching practices through engaging SDGs to transformative education and sustainability practices in universities. The project will support and enhance the implementation of SDGs in higher education by embedding sustainability across teaching, research, operations, and community outreach.

The project is funded by the Erasmus+ programme of the European Union and spans over 36 months (December 2022 – December 2025).

Introduction

The current document reports on the dissemination activities carried out by the SDG4U Partners in the whole period of implementation of the project (December 2022 – December 2025).

Dissemination has been guided by the plan drafted at the beginning of the project, and performed by all Partners thoroughly. The project website, institutional websites, social media coverage and dissemination events as well as other means have been used to promote the project.

The Dissemination Report here presents all the main activities.

Dissemination is work package 5 of the project. WP5 Dissemination and Exploitation aims to establish and run the dissemination infrastructure of the project, so that the results and all related activities are widely known in Europe and in the Mediterranean region as a whole and that the highest possible visibility is gained in the common educational arena.

Dissemination and Exploitation consists of the following tasks:

T5.1 Sharing knowledge and progress inside the Consortium.

T5.2 To identify communication channels and target groups.

T5.3 To create promotional materials

T5.4 To create and update project website & publish on social media.

T5.5 To organize events and open days. Evaluation of the plan.

Even if dissemination tasks are not explicitly reported, project promotion has been carried out along the entire project implementation, by all Partners, to engage university staff members, national and regional stakeholders, to make the project visible in the country, to involve other HEIs not partners, and to generate consensus and ownership over the results.

1. Project website

The project website of SDG4U is available here: <https://www.sdg4uproject.eu/>.

The website is divided into eight different sections:

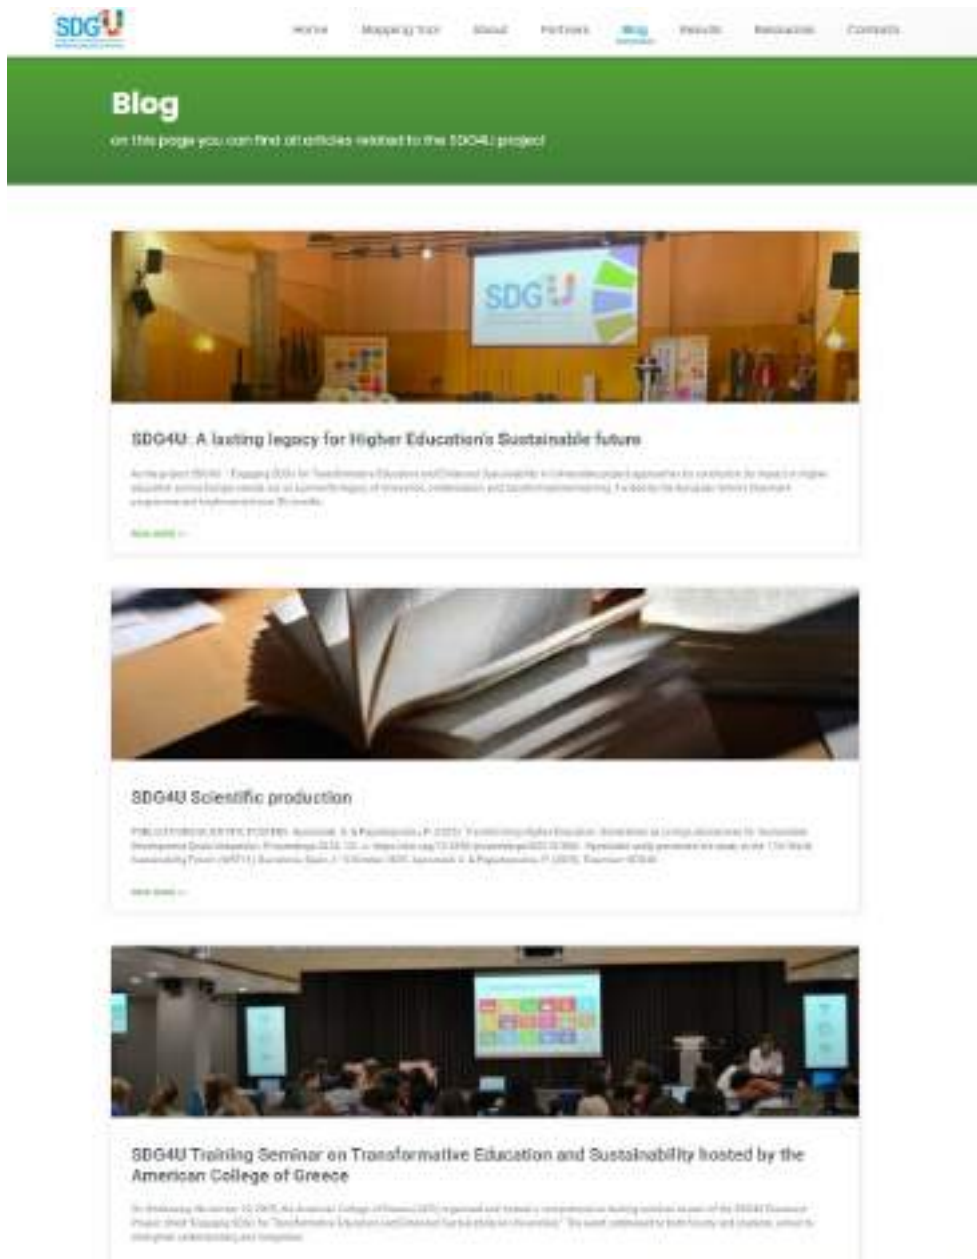

- Home
- Mapping Tool
- About
- Partners
- Blog
- Results
- Resources
- Contacts.

The first section provides the recipient with a general overview of the project, including the vision, the mission, the key objectives and the expected results. The second section is linked to the WP2 Mapping tool which mainly aims to identify and map the existing modules/courses that contain SDGs in their content, and further contribute to the development of new transdisciplinary modules and courses in European universities.

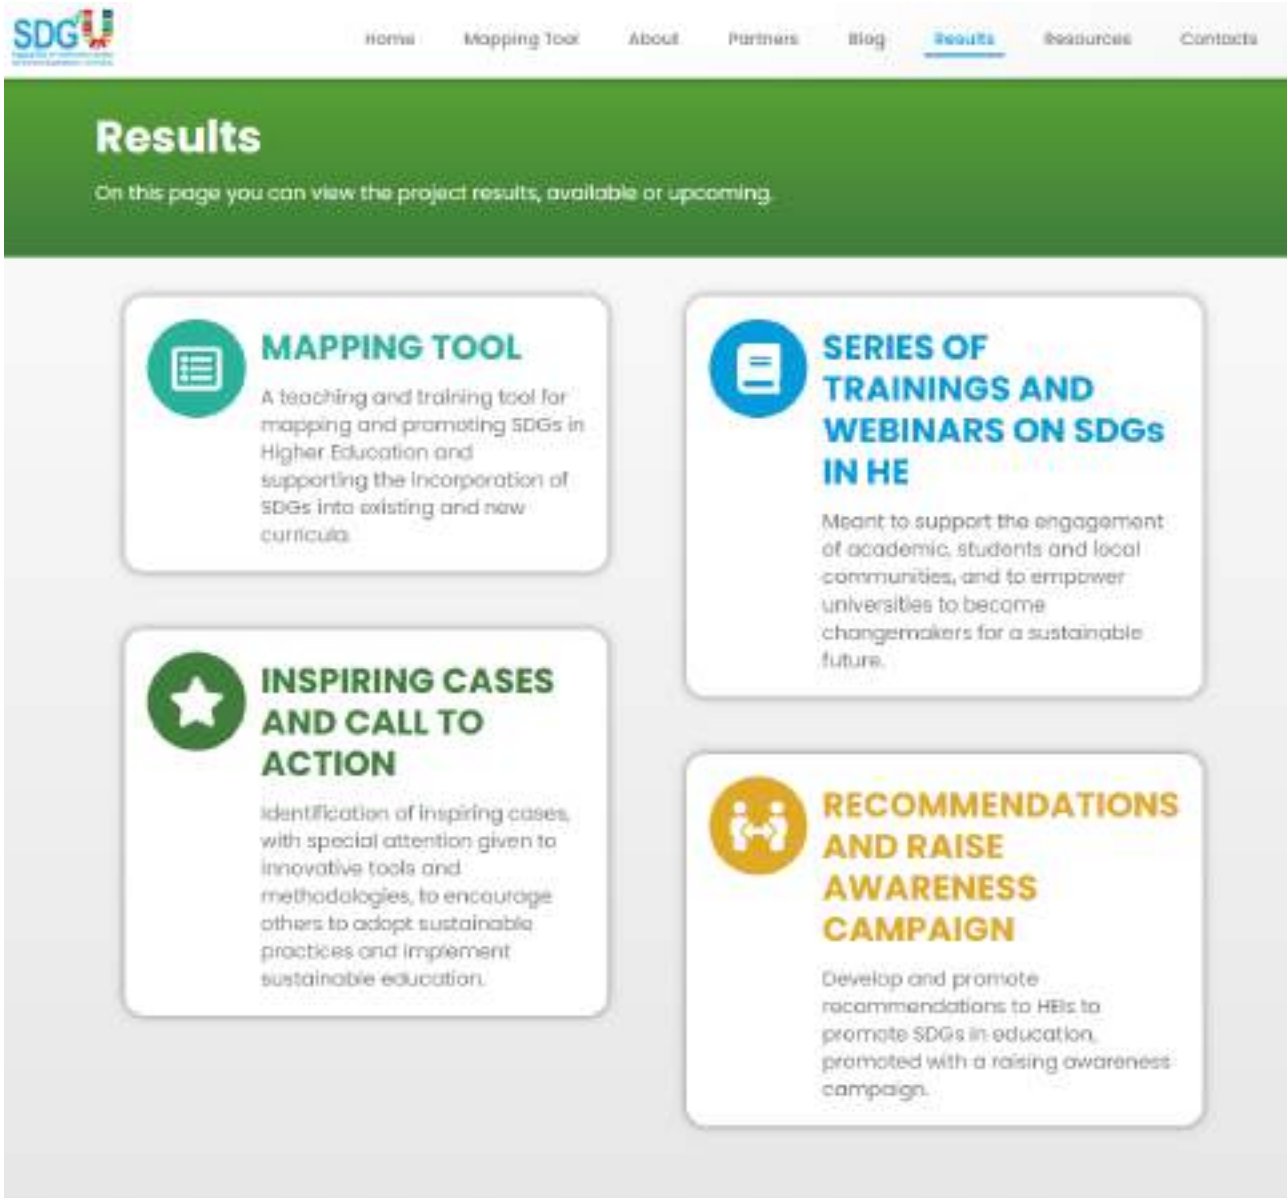

The section "About" shows the main information of the project including the project partners' description and the main goals. The section Partners includes a brief description of each Partner institutions including the names of people involved in the activities. The section Blog contains all the news published throughout the entire life of the project, giving wider dissemination to results and activities carried out. In the "Results" page, it is possible to read about every result, but also on-site activities of the project are documented. The Resources section contains the visual identity of SDG4U; in fact, it contains the promotional materials, the newsletters, and other elements such as the project infographic and the brochure.

The project website is the main dissemination tool aimed at presenting the project, informing on ongoing project activities, and outcomes generated. The coordinator of the Work Package has worked constantly to keep the website up-to-date and feed the web platform with multimedia content and news on activities and initiatives. All the communication material produced is also uploaded online to be available for partners and externals.

Here below are a few images of the different sections of the website:

Blog

The screenshot shows the 'Results' page of the SDG4U website. At the top, there is a navigation menu with links for Home, Mapping Tool, About, Partners, Blog, Results (highlighted), Resources, and Contacts. Below the navigation is a green header with the title 'Results' and a sub-header: 'On this page you can view the project results, available or upcoming'. The main content area features four white boxes with rounded corners, each containing an icon, a title, and a brief description:

- MAPPING TOOL**: A teaching and training tool for mapping and promoting SDGs in Higher Education and supporting the incorporation of SDGs into existing and new curricula.
- SERIES OF TRAININGS AND WEBINARS ON SDGs IN HE**: Meant to support the engagement of academic, students and local communities, and to empower universities to become changemakers for a sustainable future.
- INSPIRING CASES AND CALL TO ACTION**: Identification of inspiring cases, with special attention given to innovative tools and methodologies, to encourage others to adopt sustainable practices and implement sustainable education.
- RECOMMENDATIONS AND RAISE AWARENESS CAMPAIGN**: Develop and promote recommendations to HEIs to promote SDGs in education, promoted with a raising awareness campaign.

SDG4U

SDG4U key priority is to stimulate innovative learning and teaching practices through engaging SDGs to transformative education and sustainability practices in universities. The project will support and enhance the implementation of SDGs in higher education by embedding sustainability across teaching, research, operations, and community outreach.

The project tackles the following goals:

- To identify modules/courses that include SDGs in existing academic material
- To create a mapping tool for SDGs in Higher Education
- To develop initiatives on SDG mapping tools and standardize good sustainability practices
- To shape potential modules to be included in existing/new courses to educate students on SDGs implementation
- To create pedagogical material for a seminar and train SDG facilitators
- To enhance the participation of 'learners' in the decision-making processes

Mapping Tool: la nueva herramienta de ERASMUS+Project SDG4U

<https://sdg4u.uoa.gr/>

Mapping Tool es una herramienta que permite estimar el aprendizaje con la incorporación de los ODS a la educación y a las prácticas sostenibles llevadas a cabo en las universidades. Dicha herramienta permite el acceso tanto a alumnos como a profesores como asistentes de diversas materias, primarias y desarrolladas por las propias universidades, estas materias constan de programas de aprendizaje e iniciativas con especial atención en la promoción de la igualdad, el desarrollo de una cultura de responsabilidad y de equidad en todos los niveles.

¿Cómo acceder a Mapping Tool?

Para acceder a la plataforma puedes hacerlo en este link: https://sdg4u.uoa.gr/mapping_tool/

Para acceder a los diversos cursos que se encuentran dentro del programa deberás de registrarte en la plataforma, ya sea como alumno de una universidad o como parte del profesorado. Una vez se complete el registro, se podrá acceder a todos los contenidos que se organicen dentro de la plataforma.

En cuanto a los cursos, encontramos una breve descripción del contenido del curso junto con unos mapas visuales que indican qué grado de información contiene sobre los diferentes temas de interés sostenible, con esto nos podremos hacer una idea clara del contenido que nos vamos a encontrar dentro de la enseñanza.

¿Qué objetivos tiene esta herramienta online?

Estima las **prácticas innovadoras de aprendizaje y enseñanza** y lo registra con fines.

El proyecto 2022-1-0101-KA220-HED-000008716 "Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities" ("Vinculando los ODS a una educación transformadora y a la promoción de la sostenibilidad en las universidades") con el acrónimo SDG4U, pretende establecer prácticas innovadoras de aprendizaje y enseñanza mediante la incorporación de los Objetivos de Desarrollo Sostenible (ODS) para lograr una transformación en la educación que promueva la sostenibilidad en las universidades.

El proyecto prevé desarrollar una herramienta de localización que permita darlos un diagnóstico sobre cómo están las instituciones de educación superior respecto al fomento de los ODS y los medios para implementarlos de forma efectiva.

Se basará en la necesidad de mejoras en las metodologías educativas caracterizadas por la innovación, **enfokes multi-funcionales, heterogeneidad y equidad**. Aunque todos los ODS son abordados, se centra especialmente en la protección del medio ambiente y la lucha contra el cambio climático. Las iniciativas de la UE como el Pacto Verde Europeo y la Nueva Bauhaus Europea nos indican que debemos **mejorar la adaptación y la resiliencia al cambio climático** y fomentar los principios de la **economía circular, el desarrollo ciudadano donde el arte y la cultura encuentren su lugar** a la vez que se prioriza la sostenibilidad.

El proyecto tiene los siguientes objetivos:

- Identificar los métodos, áreas que incidirán los ODS en materiales académicos ya existentes.
- Crear una Herramienta de localización de los ODS en la Educación Superior.
- Desarrollar iniciativas sobre ODS y establecer buenas prácticas en sostenibilidad.
- Desarrollar contenidos que se incluyan en cursos nuevos o ya existentes para educar a los estudiantes sobre la implementación de los ODS.

University of Murcia – SDG4U dedicated webpage

2. Event strategy

Within the framework of the project, a range of dissemination actions were implemented to ensure adequate visibility and effective communication of the activities carried out. The following sections provide an overview of the key milestones, results, and events achieved during the reporting period, as well as the communication channels used to disseminate project outputs to relevant stakeholders and target audiences.

Launch of the project

December 2022

The launch of the project was documented in an article published on the SDG4U website (available [here](#)) and also shared by various partners on their institutional websites and with social media posts as reported in the screenshots below:

News published on the project website regarding the launch of the project

Instagram post about the launch of the project

Launch of the Mapping Tool

In the framework of Work Package 2, the Consortium has launched the Mapping Tool. The launch of the Mapping tool has been promoted through the project website [here](#). Other news have been published on the UNIMED website [here](#), and dedicated social media posts have been published as reported below:

Erasmus Days 2024

The #ErasmusDays are an international six-day celebration of the Erasmus+ programme. During these days, people throughout the world are invited to come together and either organise or participate in events that celebrate the projects and opportunities proposed by Erasmus+. SDG4U, with the valuable contribution of all partners, decided to participate in the ErasmusDays to show the impact of the project and give visibility to the results achieved!

Each partner produced a video focused on specific topics related to SDGs. The news about the Erasmus Days initiative has been shared on the project website [here](#). The videos have been showcased on VIMEO [here](#) for further dissemination and dedicated social media post were shared, as reported below:

Facebook social media post about SDG4U participation in the Erasmus Days 2024

UNIMED website news on SDG4U Erasmus Days 2024

On October 17th and 18th SDG4U was promoted, through a series of videos, on the Facebook page in the framework of the Erasmus Days celebrations. We used the #ErasmusDays and the #Erasmusdayschallenge hashtags, so as to display the videos on the Erasmus Days social media and platform. The level of engagement in the campaign was quite positive, raising the number of followers and interactions with the project.

Page on the Erasmus Days website:

<https://www.erasmusdays.eu/event/sdg4u-consortium/>

The Erasmus Days campaign was deployed as follows:

October 17th, 2024

Video from EKPA.

*Welcome to SDG4U! The Ethniko Kapodistriako Panepistimio Athinon presents the SDG4U Mapping Tool, designed to keep track of how universities promote SDGs in their courses. The overall aim is to get a picture of where higher education institutions stand in supporting SDGs adoption, and provide inspiring examples. Join us and **support effective engagement** of teachers, educators, students, and researchers with sustainable education. @ErasmusPlusIta #Erasmusdays #Erasmusdayschallenge*

Video from UCC.

*Listen to Daniel Carr, Research Support Officer at University College Cork, presenting the importance of international initiatives on sustainable practices in universities and how SDG4U can be a resource for Irish universities, **champions of sustainability**. @ErasmusPlusIta #Erasmusdays #Erasmusdayschallenge*

October 18th 2024

Video from ACG.

***Be inspired** by the many actions in place at the American College of Greece that are placing emphasis on sustainability as the core of the university's many activities. From greening the campus to inclusion, from raising awareness to assessing programs with the SDG4U Mapping Tool. Encourage the adoption of sustainable practices! @ErasmusPlusIta #Erasmusdays #Erasmusdayschallenge*

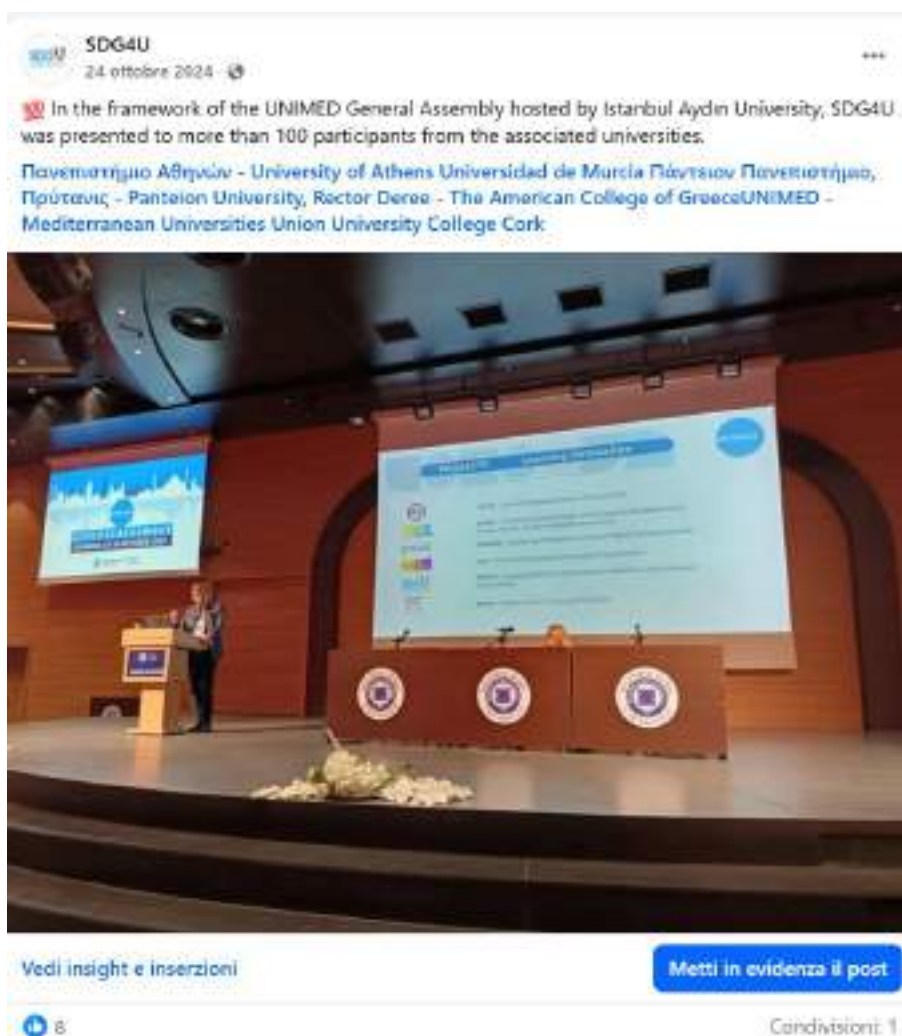

Video from UMU.

*Post text: Sustainability is a shared value across regions and generations. A teacher and a student from the University of Murcia highlight the importance of SDGs for a better university, contributing to **a more sustainable future** for the world of our youth! @ErasmusPlusIta #Erasmusdays #Erasmusdayschallenge*

SDG4U presented at UNIMED General Assembly 2024

In the framework of the UNIMED General Assembly hosted by Istanbul Aydın University, SDG4U was presented to more than 100 participants from the associated universities. Dedicated social media post are reported below:

Facebook post on SDG4U showcase at UNIMED General Assembly 2024

SDG4U presented at REFOCUS 1st Multiplier Event

On 12 December 2024, the REFOCUS project—Rethinking and Fostering Competence and Skills for Sustainable Transport, Shipping, and Logistics—hosted its 1st Multiplier Event at The American College of Greece, Athens. The day was filled with engaging presentations and discussions about REFOCUS project activities, as well as presentations from affiliate projects like SDG4U. The event has been promoted through social media post as reported below:

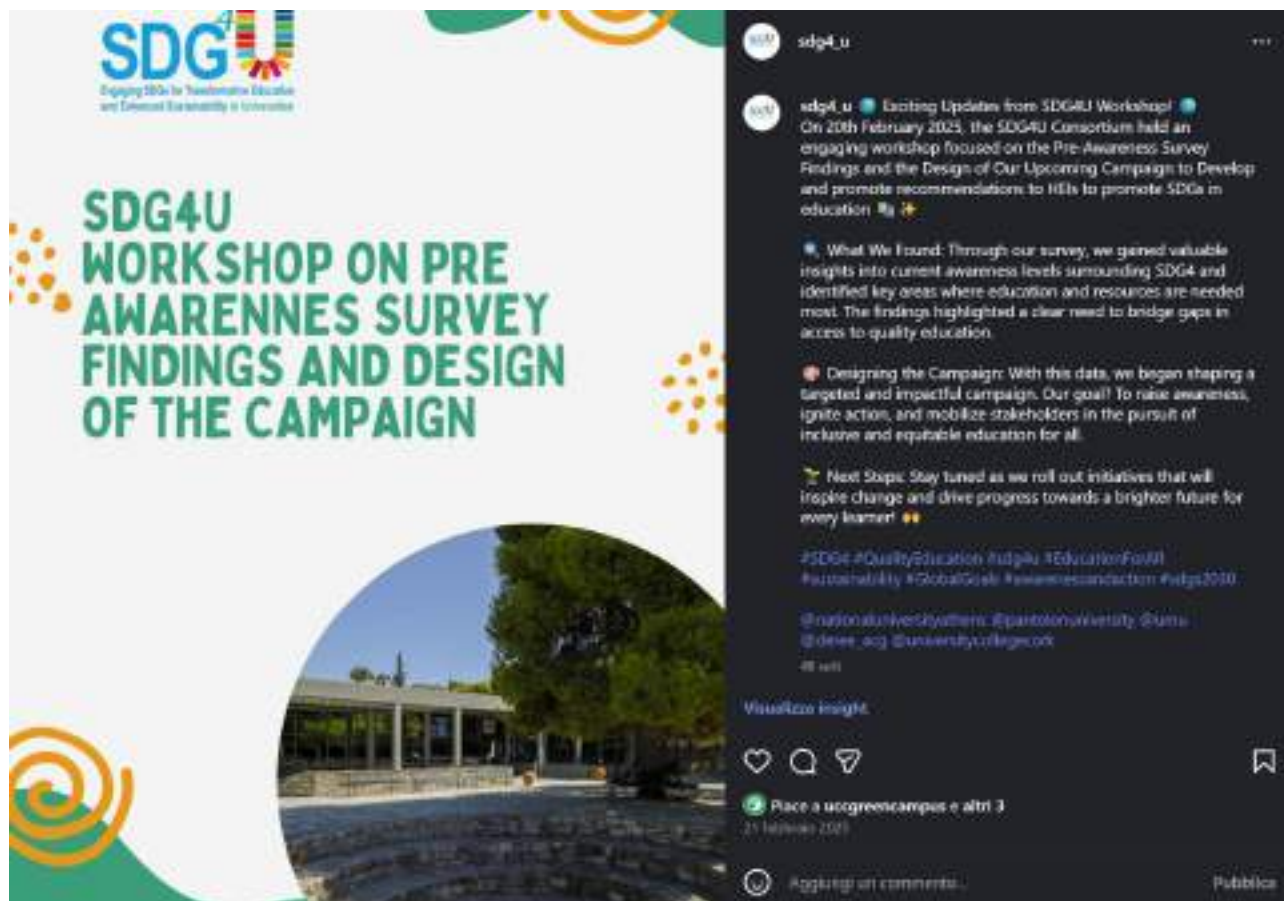

Facebook post about SDG4U participation in the REFOCUS Multiplier Event

SDG4U Workshop on Pre-Awareness Survey Findings and Design of the Campaign

On 20th February 2025, the SDG4U Consortium held an engaging workshop focused on the Pre-Awareness Survey Findings and the Design of the Campaign to Develop and promote recommendations to HEIs to promote SDGs in education. The event was promoted on the project website [here](#) and on social media project accounts, as reported below:

SDG4U presented at the Higher Education Authority ESD Webinar Series

As part of the HEA ESD Spotlight Series, University College Cork (UCC) was featured on March 7th. Dr. John Barimo, manager of SDSN Ireland, delivered the section about UCC's regarded SDG Toolkit, from its development to its implementation both within UCC and beyond. The SDG4U project was also acknowledged as another version of the module mapping tool with its project partners in Greece, Spain, Ireland, and the UNIMED network. News on the event has been published on the UNIMED website [here](#). Moreover, social media posts have been published to further disseminate the event, as reported below:

Facebook social media post about the ESD Webinar series

SDG4U “Train the Trainers” seminar

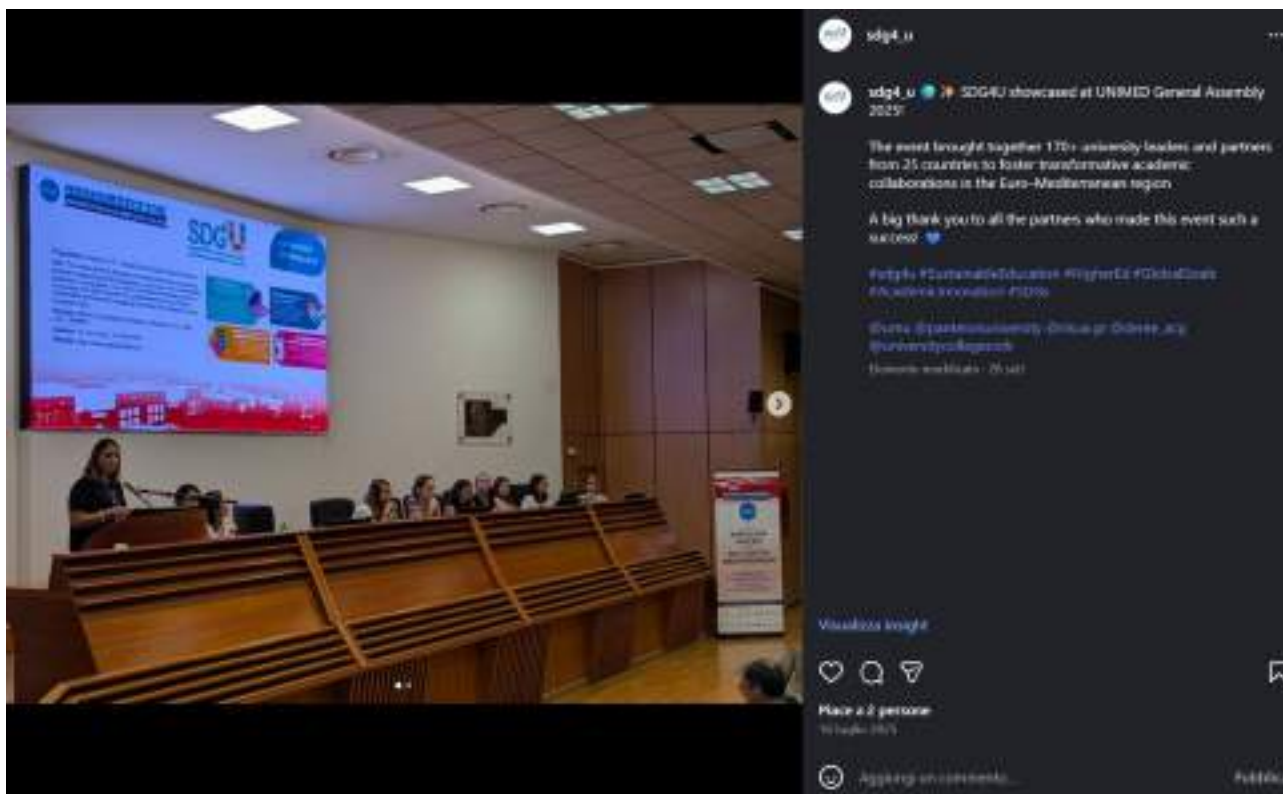

The SDG4U project organised a “Train the Trainers” seminar as a key educational initiative designed to empower university educators. The event took place on May 30th at Panteion University. News about the event has been published on the project website [here](#). Social media posts have been published as reported below:

Facebook social media post about Train the Trainers event

SDG4U presented at UNIMED General Assembly 2025

In the framework of the UNIMED General Assembly hosted by the University of Calabria, SDG4U was presented to more than 100 participants from the associated universities. A dedicated news article has been published on the project website [here](#). Dedicated social media post are reported below:

IG post on SDG4U showcase at UNIMED General Assembly 2025

Facebook post on SDG4U showcase at UNIMED General Assembly 2025

SDG4U presented at the 8th International Academic Conference on Education, Teaching and Learning—Helsinki, July 2025

At the 8th International Academic Conference on Education, Teaching and Learning (Helsinki), we presented the SDG4U project and shared the activities carried out so far. The event was promoted through social media as reported below:

Facebook post on SDG4U showcase at 8th International Academic Conference on Education, Teaching and Learning

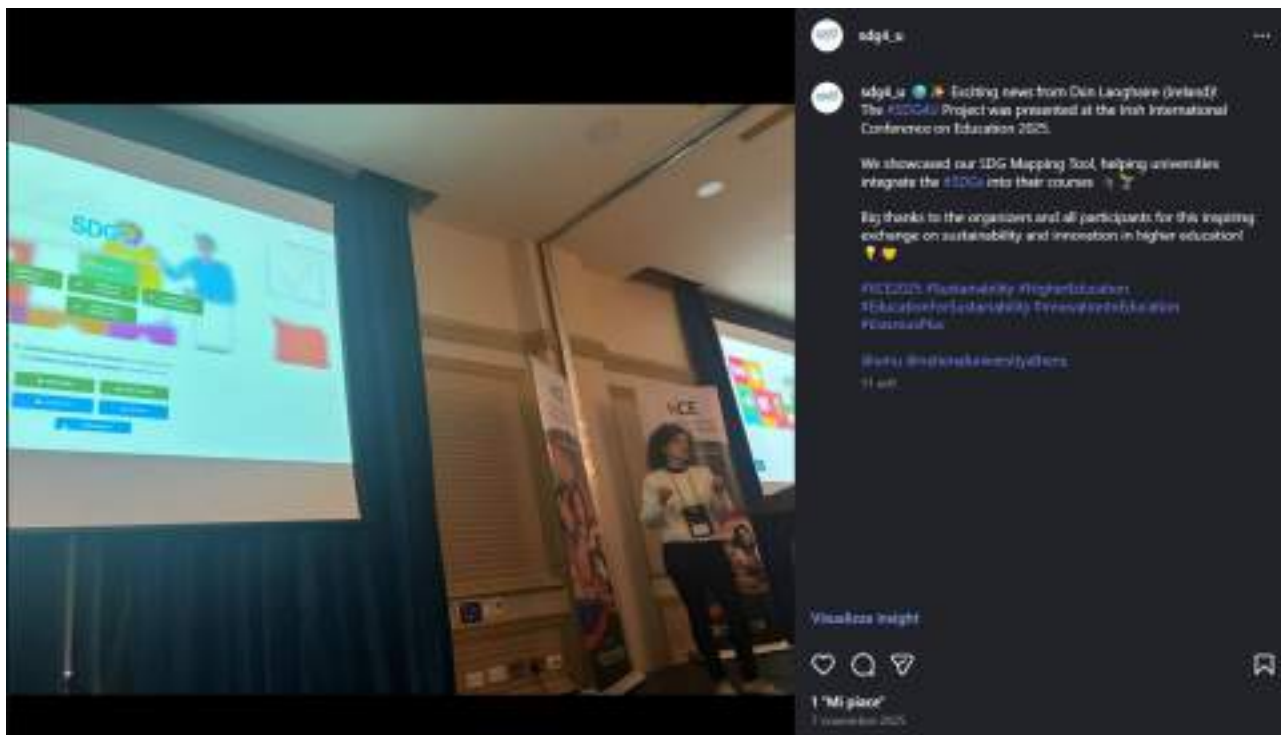

Instagram post on SDG4U showcase at 8th International Academic Conference on Education, Teaching and Learning

The SDG4U Project was presented at the Irish International Conference on Education 2025.

The project was presented during the conference held in Dún Laoghaire (Ireland) from 28 to 30 October. The event was promoted through social media as reported below:

Facebook post on SDG4U showcase at Irish International Conference on Education 2025

Instagram post on SDG4U showcase at the Irish International Conference on Education 2025

SDG4U Training Seminar on Transformative Education and Sustainability hosted by the American College of Greece

On Wednesday, November 19, 2025, the American College of Greece (ACG) organized and hosted a comprehensive training seminar titled “Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities.” The news post-event was published [here](#) on the project website, and dedicated social media post have been published as reported below:

Facebook post on SDG4U Training Seminar

Facebook post on SDG4U at the BRAVO Sustainability Award

Instagram post on SDG4U at BRAVO Sustainability Award

SDG4U Legacy

As the project approached its closure, news was published focusing on the project’s legacy, highlighting the results achieved and the long-term value generated. The article outlines how the actions implemented have contributed to a lasting positive impact, in line with environmental, social, and economic sustainability principles, ensuring that the project’s outcomes extend beyond its completion. The news has been published on the project website [here](#), on the UNIMED website [here](#), and other news and social media content have been published by the partners to maximise the visibility, as reported below:

Finaliza el proyecto europeo SDG4U, en donde desde la Universidad de Murcia hemos trabajamos en red junto a otros centros de educación superior de Grecia o Irlanda, así como la red Unión de Universidades del Mediterráneo.

SDG4U: un legado duradero para el futuro sostenible de la educación superior

A través del [proyecto europeo SDG4U: Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities](#), financiado por el MEC para una duración de 48 meses (1 y 2 años desde el inicio de la actividad) y a su vez, la Universidad de Murcia colabora con la Unión de Universidades del Mediterráneo (UUM) como un pilar de la educación superior en sostenibilidad (SDG) como un pilar de la educación, sostenibilidad y gobernanza universitaria.

Finalizado por el programa Erasmus+ de la Unión Europea y aprobado el 14 de junio de 2023, el proyecto de 2023-2026, SDG4U, ha sido un éxito en su implementación. Incluye actividades de desarrollo de actividades de sostenibilidad en las Universidades de la Unión Europea, desde actividades de sensibilización hasta la implementación de la cultura de la sostenibilidad.

Promoción de la sostenibilidad en la enseñanza y el aprendizaje

Una de las prioridades del programa es promover la sostenibilidad en la enseñanza y el aprendizaje. Esto se logra a través de actividades de sensibilización y formación de los estudiantes en temas de desarrollo sostenible. Además, se realizan actividades de investigación y proyectos de innovación en sostenibilidad, promoviendo la sostenibilidad en la enseñanza y el aprendizaje.

Otra prioridad es el desarrollo de actividades de sostenibilidad en la enseñanza y el aprendizaje. Esto se logra a través de actividades de sensibilización y formación de los estudiantes en temas de desarrollo sostenible. Además, se realizan actividades de investigación y proyectos de innovación en sostenibilidad, promoviendo la sostenibilidad en la enseñanza y el aprendizaje.

Empoderamiento de educadores y estudiantes

El objetivo es proporcionar a los educadores y estudiantes herramientas y recursos para promover la sostenibilidad en el aula. Esto se logra a través de actividades de formación y desarrollo de capacidades, así como de actividades de investigación y proyectos de innovación en sostenibilidad, promoviendo la sostenibilidad en la enseñanza y el aprendizaje.

University of Murcia – Institutional website news on SDG4U Legacy

The news about the Legacy of the SDG4U project has been published on the International Association of Universities' dedicated portal on [Higher Education and Research for Sustainable Development \(HESD\)](https://iau-hesd.net). The platform aims to disseminate initiatives and activities related to sustainability in higher education and research.

The news is available here:

<https://iau-hesd.net/action/sdg4u-project-engages-sdgs-higher-education>

In addition, dedicated posts have been published on UNIMED social media, as reported below:

3. Raise Awareness Campaign

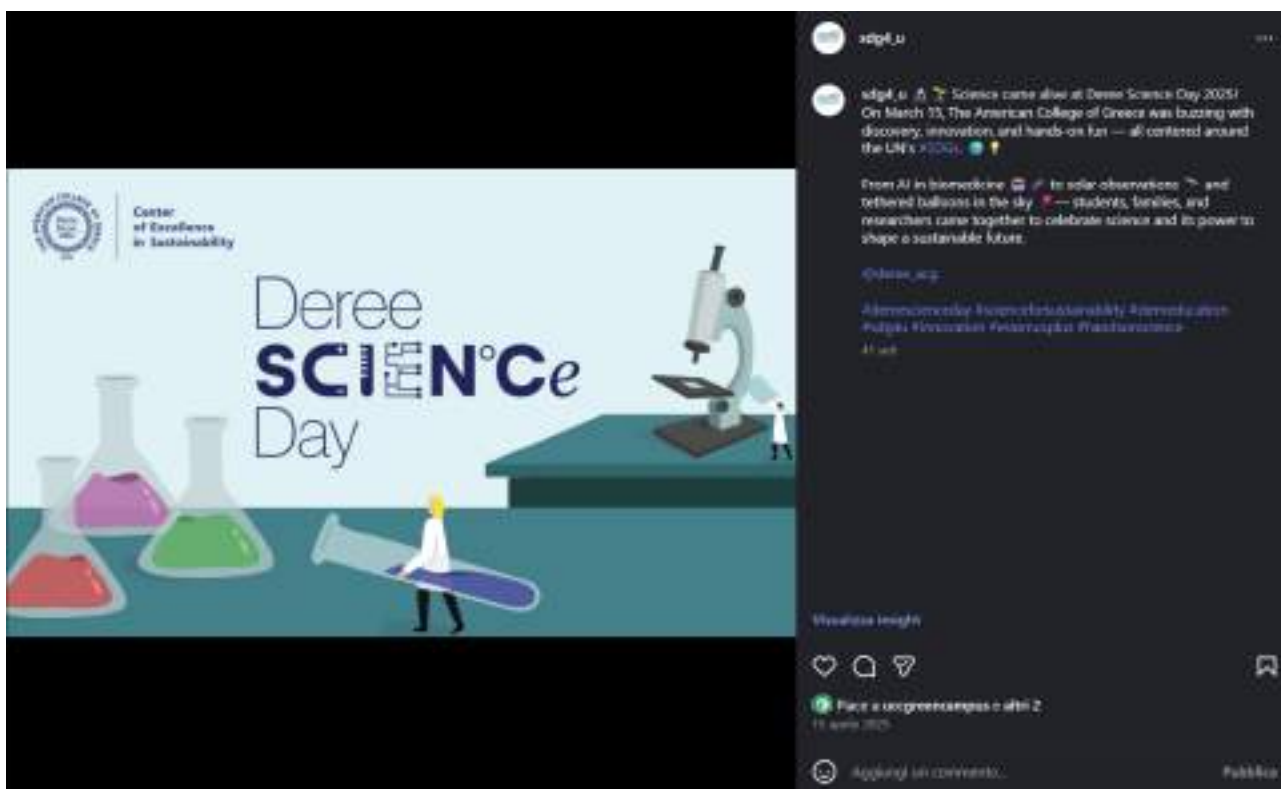

SDG4U Partners worked strongly to raise awareness and actively engage the educational community for the promotion of the Sustainable Development Goals through an awareness campaign targeting faculty members, students and the general public in Europe and beyond. The campaign involves webinars, social media posting and in-person institutional events to ensure the maximum visibility and engagement. A general overview of the most relevant events is provided below.

Deree Science Day – March 2025

On Saturday, March 15, 2025, Deree Science Day transformed The American College of Greece into a vibrant hub of scientific exploration, bringing together students, families, and researchers for an immersive journey into the world of science. The event is considered as part of the Raise Awareness Campaign. A news article focused on the event has been published on the project website [here](#). Social media post have been accordingly published as reported below:

Facebook social media post about Deree Science Day

Instagram social media post about Deree Science Day

SDG4U at IES ODSESION@DOS Conference – May 2025

On 9 May 2025, as part of the 'IES ODSesionad@s' conference, the University of Murcia presented the European SDG4U project to around 250 students from 7 secondary schools in the Region of Murcia. The event was promoted through social media, as reported below:

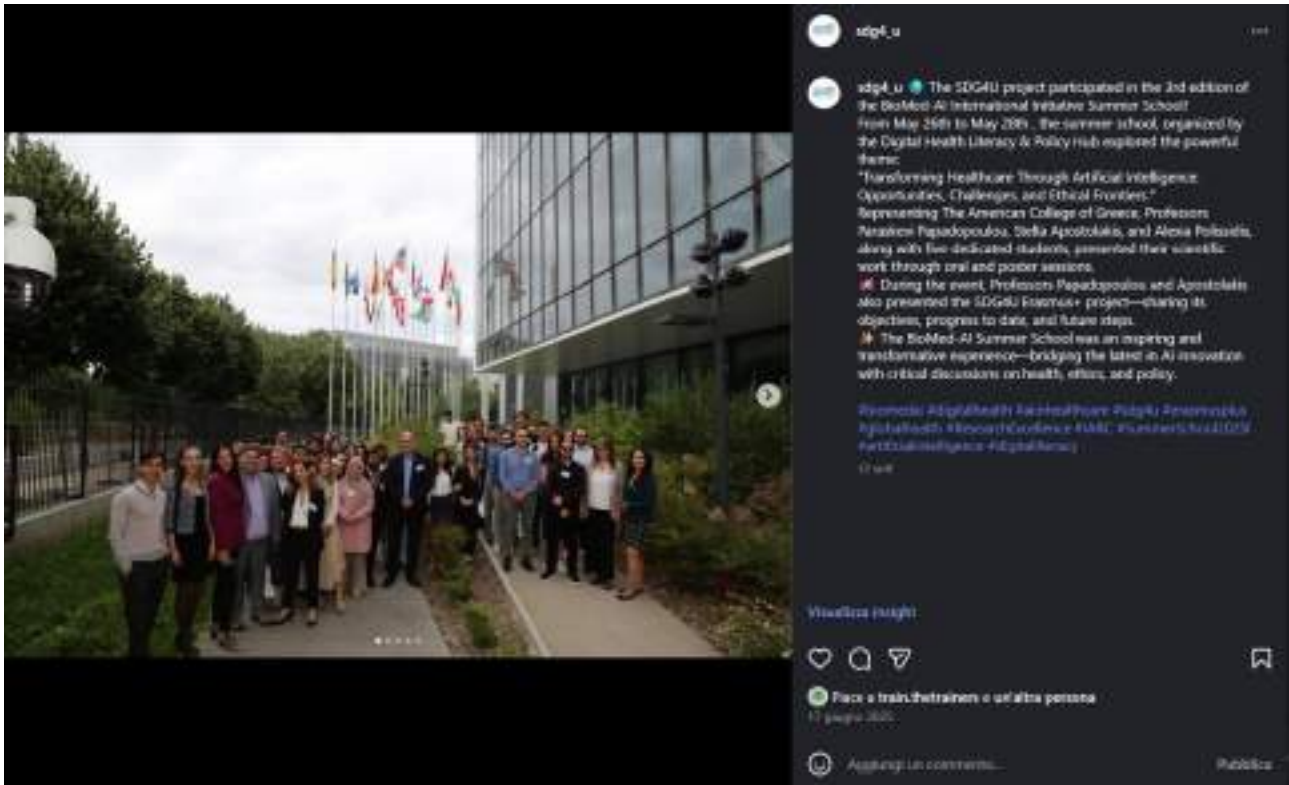

Facebook social media post about IES ODSESION@DOS conference – May 2025

IG social media post about IES ODSSESSION@DOS conference – May 2025

SDG4U in the 3rd edition of the BioMed-AI International Initiative Summer School

From May 26th to May 28th, the summer school, organized by the Digital Health Literacy & Policy Hub, explored the powerful theme "Transforming Healthcare Through Artificial Intelligence: Opportunities, Challenges, and Ethical Frontiers." During the event, Professors Papadopoulou and Apostolakis also presented the SDG4U project—sharing its objectives, progress to date, and future steps. The event was promoted through social media as reported below:

UCC Green Week 2025: A Week of Sustainability and Climate Action

From March 31 to April 4, 2025, University College Cork (UCC) hosted its annual Green Week, bringing together students, staff, and the wider community for a collaborative week of environmental action and sustainability education on campus. The event was promoted through the University College Cork website [here](#), and on the project Newsletter as reported below:

UCC Green Week 2025: A Week of Sustainability and Climate Action!

From March 31 to April 4, 2025, University College Cork (UCC) hosted its annual Green Week, bringing together students, staff, and the wider community for a collaborative week of environmental action and sustainability education on campus.

The main highlights of the Week include:

- COP29 Reflection Event: the participants could reflect on UCC's participation at COP29 in Baku, Azerbaijan, and discuss key takeaways from the UCC delegation.
- Bike Doctor on Campus: Offering free bike checks and tune-ups by expert mechanics.
- Vegan & Vegetarian Food Vendors: Providing a variety of delicious and sustainable plant-based food options across campus.

SDG4U Webinar on Art and Sustainable Development

An international webinar exploring how art can support the UN Sustainable Development Goals was hosted at Panteion University on December 19th, 2025. The event was promoted through social media posts, as reported below:

The comprehensive list of the events is available in Annex I.

4. Newsletters

Newsletter n. I

The first SDG4U Newsletter was published in October 2024. The main aim of the newsletter was to update and inform the audience about the most important events and activities of the project. Firstly, there was a brief presentation of the project with the key objectives. Secondly, there was a brief description of the Mapping Tool with useful information regarding its objective and how to access it. Finally, the Erasmus Days 2024 and the participation of the Consortium were also displayed. The newsletter has been published on the Website in the Section Resources [here](#), and social media posts have been published to encourage the download of the newsletter. (IG: [here](#))

Newsletter n. II

The second SDG4U Newsletter was published in March 2025. The newsletter was focused on the latest events such as the showcase of SDG4U at the ESD webinar series. Moreover, it also contained a general overview of the pre-awareness survey, the Workshop held in February 2025, and the launch of the raise awareness campaign.

The newsletter has been published on the Website in the Section Resources [here](#), and social media posts have been published to encourage the download of the newsletter. (IG: [here](#))

Newsletter n. III

The third SDG4U Newsletter was published in December 2025. The newsletter was focused on the Raise Awareness Campaign, providing the audience with a general overview of the main events organised by each Partner Institutions. Moreover, it also contained a general overview of the "Train the Trainees" event held in May 2025 at Panteion University and the Training Seminar held in November 2025 at the American College of Greece.

The newsletter has been published on the Website in the Section Resources [here](#).

All three newsletters are available in Annex II.

5. SDG4U Scientific Production

The Scientific Production of the project is available on the project website in the section Resources at this link: <https://www.sdg4uproject.eu/sdg4u-scientific-production/>.

SDG⁴U

Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities

Engagement of UNIMED Associated universities

UNIMED – Mediterranean Universities Union – is a network of Higher Education and Research Institutions, active in promoting academic cooperation in the Euro-Mediterranean region and in Sub-Saharan Africa, in the Middle East and the Western Balkans. We strive to be a dynamic network that combines the resources of its members in mutual support so as to benefit our communities on a local, national, regional, and global scale. Our mission is to facilitate international academic and research cooperation in order to enhance the scientific, cultural, social, and economic development of the region.

Founded in 1991, in the aftermath of the fall of the Berlin Wall, the network has grown over the years, counting today more than 150 members coming from all over the Mediterranean Region and beyond. Through the many initiatives carried out over 30 years, UNIMED has promoted the collaboration between universities of the Mediterranean, becoming a point of reference for international university cooperation.

UNIMED works on several topics, as many as the universities and regional priorities can be. It carries out projects in different fields, ranging from governance to integration of refugees, as well as sustainable development, digital education, employability, and intercultural dialogue. Besides, it keeps a strong dialogue with academic experts and its institutional partners within the activities of its thematic sub-networks and further initiatives.

The environmental and social emergency makes necessary the transition to new models of sustainable development. Both the UN Agenda 2030 and the new generation of EU policies drive in this direction. Education is pivotal for new generations and future leaders, highlighting the need for updated education modules and models, providing connections between the educational offer and the current environmental and social phenomena, increasing contamination between fields, and engaging a wide range of stakeholders from academia, the private sector, public agencies, and more. UNIMED is engaged in many initiatives and projects featuring universities and other local, regional, and international actors to contribute and to help the shift towards an Education for Sustainable Development according to the UNESCO principles.

SDG4U is part of the UNIMED commitment towards sustainable development, sustainable education and sustainability in universities. Several sub-networks are engaged and committed to the same goals: BlueMed, Climate and environmental change, Food and Water, Mediterranean Tourism, etc.

Communications to the UNIMED Network

Through social media posting (see above), reaching an audience of:

- Facebook: 9.187 followers

- LinkedIn: 7.778 followers

Through the UNIMED website, to the member universities, ranging over the course of the project implementation from 157 to 181 members

Inspiring Sustainable Learning, One Module at a Time

Facebook | Twitter | LinkedIn | WhatsApp | Email

SDG4U – Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities is a cooperation partnership project that spans over 3 years (2022-2025). The project consortium is composed by the National and Kapodistrian University of Athens (Coordinator), the Panteion University of Social and Political Sciences, the University College Cork – National University of Ireland, the University of Murcia, The American College of Greece Research Center and UNIMED. The project aims to support and enhance the implementation of SDGs in higher education by embedding sustainability across teaching, research, operations, and community outreach. Indeed, the main priority is to stimulate innovative learning and teaching practices through engaging SDGs to transformative education and sustainability practices in universities. To reach this goal, the project tackles to identify modules/courses that include SDGs in existing academic material and to create a mapping tool for SDGs in Higher Education.

The SDG4U Consortium has worked on developing a **Mapping Tool**, designed to keep track of how universities embed SDGs in their courses, with the overall aim of getting a picture of where higher education institutions stand in terms of supporting SDGs. It also provides examples and inspiring means to enhance effective engagement of HEIs, teachers and educators, students and researchers, with SDGs. The SDG4U Mapping Tool aims to *inspire sustainable learning, one module at a time*.

It is expected to identify and map the existing modules/courses that contain SDGs in their content, and further contribute to the development of new trans-disciplinary modules and courses in European universities. In turn, students will have a tool to select their courses based on the integration of SDGs in the curricula. Last but not least, the SDG4U Mapping Tool will bring inspiration for future-oriented curricula that better meet the needs of individuals, institutions and societies. The Mapping Tool will inform operations and community engagement efforts to incorporate the principles of sustainability at all levels of university life.

This relevant instrument is now available online at sdg4u.uoa.gr/mapping_tool/ and will be implemented in all participating universities of the project.

For more information about how to access and make use of the SDG4U Mapping Tool, you can reach NKUA, Project Coordinator at 056ffdc@panteion.gr or emes.teams.ms.

Stay tuned to know more about the next steps by visiting the [website project](#) and the [SDG4U Facebook page!](#)

Sustainable development among the European values celebrated during the Erasmus Days: SDG4U for sustainable education

Time

- Facebook
- Twitter
- LinkedIn
- Instagram
- Book

Today the launch of the #ErasmusDays celebrations, taking place between the 14th and the 19th October 2024, as an international one-day celebration of the Erasmus programme, which over the course of the last decades has deeply contributed to support education, mobility, intercultural opportunities and more.

While celebrating the Erasmus Days, we also celebrate our common values, among which sustainable development must be the core. To participate in the celebrations, the Partners of the SDG4U project – *Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities* – released a series of mini-videos to present the initiative, the work behind the scenes and the impact expected from the project. Great focus is on the importance of sustainable education and the **Mapping Tool** developed by the Partners, to **inspire sustainable learning, one module at a time**.

You can watch the videos by clicking on each, here below.

Introduction to SDG4U

Sustainability in universities

Be inspired by good practices

Teachers and students for a more sustainable future

The Erasmus+ project SDG4U's key priority is to stimulate innovative learning and teaching practices through engaging SDGs to transformative education and sustainability practices in universities. The project activities will enable access to knowledge and skills required for understanding and promoting sustainable development, through formal education, life-long learning programs and initiatives with emphasis on promoting equality, on developing a culture of peace, non-violence and fairness at all levels.

We firmly believe that the Erasmus+ programme can be a game-changer in the path towards sustainable development, and we are proud to be part of the ErasmusDays celebrations with SDG4U.

Discover more about the project here: <https://www.sdg4u-project.eu/>

Follow us on Facebook: https://www.facebook.com/people/SDG4U-61557321213206/?locale=it_IT

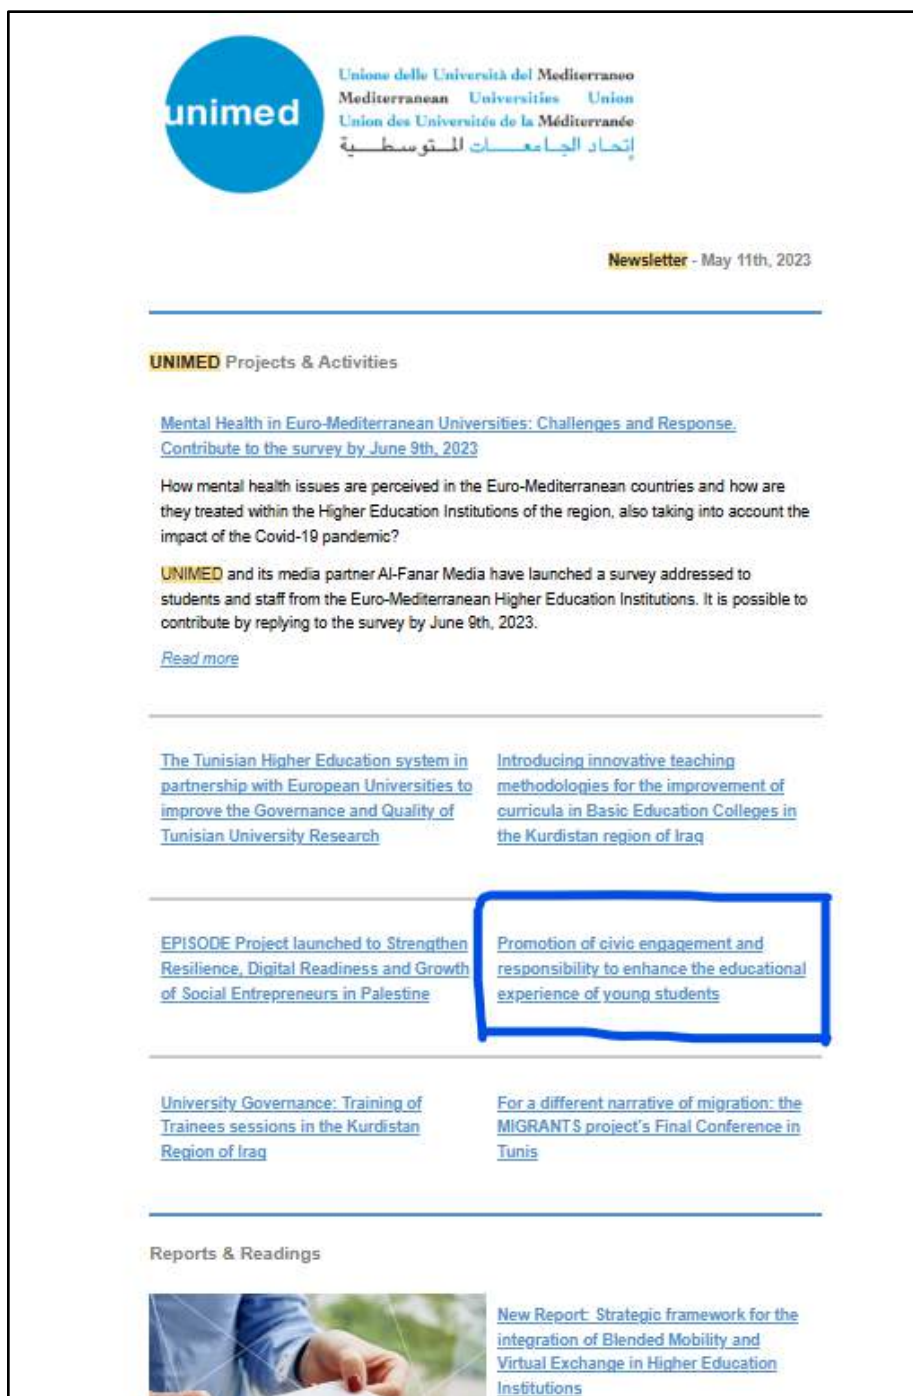

SDG4U joins the global Erasmus Days celebration, highlighting the impact of Erasmus+ initiatives and their role in building a brighter future through education and collaboration.

PREVIOUS Social Entrepreneurship promoted by a young Leonardo...

NEXT UNIMED celebrates the ErasmusDays 2024

Through the UNIMED Newsletter (May 2023), reaching about 5000 recipients.

Through targeted emails for the preliminary evaluation of the Mapping Tool to the University of Evora (Portugal), Ca' Foscari University of Venice (Italy), and the University of Montpellier (France). The text of the email is here below; it was sent out by the person responsible in UNIMED for keeping relations with the target universities.

“UNIMED is involved in a new project called SDG4U, namely Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities, whose goal is to stimulate innovative learning and teaching practices through engaging SDGs to transformative education and sustainability practices in universities. More information, shall you be curious, can be found here: <https://www.uni-med.net/projects/sdg4u/>.

The Partners are now working on the development of a Mapping Tool as the first project achievement, to map learning and teaching practices in universities that relate to the SDGs.

To prepare the tool, we are doing a first mapping of good practices, to start collecting a number of examples.

And we would like to ask your support in filling the attached table, based on your expertise and experience.

UNIMED was assigned 3 SDGs to explore, with a number of indicators:

SDG 14 Life below water

SDG 15 Life on land

SDG 16 Peace, justice and strong institutions

You can either respond to the 3 SDGs or only those where you feel more in line.

In the long run, the project activities will enable access to knowledge and skills required for understanding and promoting sustainable development.

We will keep you updated on the next project steps and how to benefit from the final results.

In the meantime, I would like to thank you for your time.

Shall you have any question, in cc my colleague Martina Zipoli responsible for the project at UNIMED.”

and Enhanced Sustainability in Universities

SDG4U
Universities for sustainable education

Co-funded by the European Union

SDG⁴U
Engaging SDGs for Transformative Education and Enhanced Sustainability in Universities

MAPPING TOOL
"Inspire sustainable learning, one module at a time"

A teaching/learning tool for mapping and prioritising SDGs in Higher Education and supporting the incorporation of SDGs into existing and new curricula. The tool will be adaptable to other organisations and HEIs to reuse & over the long-term.

SERIES OF TRAININGS AND WEBINARS ON SDGs in HE

This series of events is meant to support the engagement of academics, students and local communities, to empower universities to become change-makers for sustainable future.

INSPIRING CASES AND CALL TO ACTION

Identification of inspiring cases, with special attention given to innovative tools and methodologies, to encourage others to adopt sustainable practices and implement sustainable education.

RECOMMENDATIONS AND RAISE AWARENESS CAMPAIGN

Identify and engage into research initiatives and networks that promote sustainability. Implement campaigns for raising awareness. Develop and promote recommendations to HEIs to promote SDGs in education.
