4

Implementing SDGs in Higher Education by embedding sustainability across teaching, research, operations and community outreach.

SDG

Why SDG4U?

- To cultivate a sustainable organizational culture based on transparency and mutual support
- To promote sustainability citizenship amongst faculty, student and staff population
- To help initiate Green Campus programs, research informed and practice focused
- To develop initiatives on SDG mapping and standardization of good practices
- To educate students in practical implementations on SDGs
- To shape modules and create pedagogical materials for students and SDG facilitators
- To promote initiatives for advancing sustainability of universities
- To raise public awareness
- To empower and implement transformative learning and experience

Project Results

The project activities will enable access to knowledge and skills required for understanding and promoting sustainable development, through formal education, life-long learning programs and initiatives with emphasis on promoting equality, on developing a culture of peace, non-violence and fairness at all levels.

- Mapping Tool for professors and students
- Seminars on SDGs
- Redesign of courses and modules to embed SDGs
- Collection of inspiring examples
- Awareness raising on the importance of sustainable practices
- Promotion of transformative education

SDG4U's key priority is to stimulate innovative learning and teaching practices through engaging SDGs to transformative education and sustainability practices in universities.

The project will support and enhance the implementation of SDGs in higher education by embedding sustainability across teaching, research, operations, and community outreach.

The project is funded by the Erasmus+ programme of the European Union and spans over 36 months (December 2022 - December 2025).
